OBJECTIVE

Diploma CS student at CWIT Pune with hands-on experience shipping full-stack web apps, AI/ML tools, and offensive security software. Built and deployed real products independently since 2022 — from a multi-model AI chat platform to a static malware analysis engine with 500+ YARA rules. Seeking internship or entry-level roles in software development or security.

EXPERIENCE

AI/ML Intern · The Code Culture

May 2026 – Present

– Building AI-powered features and tools as part of internship at an early-stage tech company.

Independent Developer · Self-Employed

2022 – Present

- Shipped multiple full-stack web apps and desktop applications independently.
- Built offensive security tooling including static malware analysis and recon suites.
- Deployed AI-powered products on Vercel, Railway, and Cloudflare.

PROJECTS

Quiescan quiescan.chinmayshinde.tech

AI-powered static malware analysis tool. Drop a file, get a full verdict — strings, entropy, hashes, YARA. 500+ YARA rules, 10M+ malware hash database. No sandbox, no execution, no risk.

Stack: Python · FastAPI · Firebase · Vercel · Google Gemini

VOIDSTRIKE voidstrike.chinmayshinde.tech

AI-powered offensive recon suite wrapping 27+ security modules (nmap, nikto, sqlmap, and more). Fingerprints a target, builds a custom scan plan, returns one ranked report. Built for bug bounty hunters and pentesters.

Stack: Python · Docker · React · Shell

PITCHFORGE pitchforge.chinmayshinde.tech

Marketing copy generator that produces launch-ready content for 6 platforms simultaneously from an app store URL or brief. Features ASO scoring, A/B variant generation, launch readiness checklist, and iOS keyword field packer.

Stack: React 18 · Vite · Node/Express · tRPC · Drizzle ORM · TiDB · Clerk · Google Gemini · Cloudflare Workers

CS-AI wadia-ai.vercel.app

Full-stack AI chat platform with Google Sign-In, multi-model support (Gemini, NVIDIA Nemotron, OpenRouter), per-user token quotas, SSE streaming, Firestore chat history, and role-based admin panel.

Stack: Vanilla JavaScript · Firebase Auth · Firestore · Google Gemini API · OpenRouter API · Vercel Serverless

Notes AI wadia-panel-ai.vercel.app

AI-powered study notes generator from any topic, pasted text, or uploaded PDF using Google Gemini 2.5 Pro. 4 note styles, one-click PDF and Markdown export. Zero backend.

Stack: HTML · CSS · JavaScript · Google Gemini API · jsPDF · Vercel

Student Data Administration System

Java desktop app packaged as a Windows EXE. BCrypt login, role-based access control, live student search, full CRUD synced with MySQL. Validated against 150+ real student records at CWIT.

Stack: Java · AWT/Swing · MySQL (Clever Cloud) · jBCrypt · Launch4j

CS MART

Amazon-inspired multi-page e-commerce frontend built with HTML and CSS. Product listings, discount badges, registration form with HTML5 validation, responsive flexbox layout.

Stack: HTML · CSS

VOIDWEN github.com/CSV0ID/VOIDWEN

Open-source AI agent merging two LLM personas with classical Chinese (wenyan) as an extreme compression output mode. Fully client-side — no server, no API tokens for non-reasoning tasks. Zero recurring cost.

Stack: TypeScript · ONNX · transformers.js · GitHub Pages · Cloudflare

VOIDSTATE

On-device behavioral analytics app tracking phone/PC usage locally with on-device ML. Surfaces insights in 7 configurable modes including Hinglish and custom tones. No data leaves the device.

Stack: Kotlin · TFLite · ONNX · Tauri v2 · React · SQLite

TECHNICAL SKILLS

Languages: Python · Java · Kotlin · TypeScript · JavaScript · C · C++

Web: HTML · CSS · React · FastAPI · Node.js · Express · tRPC

AI/ML: Google Gemini API · OpenRouter API · ONNX · TFLite · LLM APIs · RAG

Security: Static Analysis · YARA · Reverse Engineering · API Recon · Threat Modelling · Frida · Burp Suite · nmap · sqlmap

Databases: MySQL · Firestore · TiDB · SQLite · Drizzle ORM

Tools/Platforms: Git · GitHub · Docker · Vercel · Railway · Cloudflare · Firebase · Vercel Serverless

Concepts: REST APIs · SSE · RBAC · BCrypt · JWT · CORS · CI/CD

EDUCATION

Diploma in Computer Engineering · Cusrow Wadia Institute of Technology, Pune 2024 – 2027

Relevant: Data Structures · OOP · DBMS · Web Technologies · OS · Computer Networks

Secondary School Certificate (SSC) · Podar International School Completed May 2024

CERTIFICATIONS

Agentic AI Certified Foundations Associate
